

## Middle School Adaptation Guidance

This adaptation was created to accommodate organizations who want to use *Love Notes* with middle-school-age youth. The concepts will all be the same as standard *Love Notes EBP*, but some language, framing, and scenarios on the activity cards will be worded in developmentally appropriate ways for middle-school-age youth. A number of younger images are used in the PowerPoint slides and quotes from younger teens will replace some of the quotes from older teens in *Love Notes EBP: Middle School Adaptation*. In some lessons, you may find a section omitted. A couple of workbook applications will be omitted. To assist you in delivering *Love Notes EBP* to middle-school-age youth, we are providing several resources:

- A PowerPoint slideshow for each lesson with fidelity notes especially geared to help you deliver the lesson to middle-school youth. The notes under the slides will be your main guide. They will help you introduce and frame the concepts and carry out the activities. Consider printing them off.
- A unique set of activity cards and resources adapted for middle-school youth is provided for you. Some of the language was edited for a younger audience.
- A guidance document with notes for every lesson to highlight what may be different in a lesson. Following are the basic guidance notes for each lesson of *Love Notes EBP: Middle School Adaptation*.
- The Middle School Edition of the *Love Notes* workbook should be used with this adaptation. When ordering workbooks, be sure to specify that you want to order the Middle School Edition of the workbook.
