I consider that this program brought us the tools that every person needs to know and be clear at the hour of having a future relationship. One of the benefits is, that it teaches us to analyze the alternatives and think what we really want, that way we can make a good decision. It taught us that we shouldn't do what we don't want just to keep a person at our side, if that person really loves us, they won't make us do something or put conditions to be with her or him. Also, this program made us realize that we should be very alert with who we interact with and to pick wisely our partners. And lastly, what I liked the most, was the way they presented us the information.

This program has helped me since it brought me the necessary tools to be prepared for a future relationship. What I liked most of the program was the information of the videos, detailed and precisely, focusing on what's more important so you can have a healthy future. The program helped me to say "NO" when it was necessary and to the things that doesn't benefits me. It helped me think on the possible solutions to the problems that can be presented on life and to take them with calm.

This program helped me to understand how a healthy relationship of a partner or friend should be. Also, it taught me some stuffs which I didn't had any knowledge. What I liked most of the program was the different activities that we had to complete. This program will help me analyze a good relationship.

This workshop helped me to know more and be clearer about the topics of friendships and relationship, being more prepared and secure about the things I should and want when the moment of sharing together with someone comes and take smart decisions to avoid problems in the future.

Testimonial

K. J. T. R., Puerto Rico

04/20/2021

Student diagnosed with Spectrum/ Asperger's Autism. The experience when sharing the information with an adult was extraordinarily helpful, since his condition doesn't let him socialize a lot, or like he says, it's personal. Was able to express ideas, feelings and fear. This experience was of great help and improvement. Some topics were strong, since his biological age isn't the same as his neurological age. He is two years below his biological one. For him they are taboo topics.
